Joe Eisen CF APF-I , 919-408-7268

joe.eisen@outlook.com

Clinicians: Drs. Dick Mansmann & Megan Radkin

APPROVED FOR 3 IAPF CONTINUING EDUCATION CREDITS.

Sponsor: Foxglove Farm

Flyer Details:

A DVM/Farrier/Owner Team provides an equine case in need of podiatry-related ideas. The examinations, radiography and dinner are gratis; the owner makes their own financial arrangement with their farrier. The meeting is from 6 PM to 9PM. While everyone is settling in & getting some food and drink there is a general topic of discussion for farriers and veterinarians' joint interest. For example, on 10/19 the presentation and discussion was on considerations for shoeing for landing versus loading.,

Then, the horse's owner, veterinarian and farrier provide a medical history. The group will observe the horse in motion in the aisle, arena and/or driveway. Next the group does a podiatry examination followed by Dr. Radkin doing podiatry radiographs for the group to discuss. Then a trimming and possible shoeing plan is discussed. The consensus plan approved by the owner and the owner's farrier is then accomplished by the owner's farrier. Follow-up radiographs will be discussed. There will be one case each evening. The end time is no later than 9PM.

The goal is to see how farriers and equine practitioners work together on a particular case that can then translate to other cases.
